The perfect blend of serenity, natural beauty, and convenience . . . Sycamore Canyon is a beautiful master-planned community nestled near the base of the Santa Rita Mountains with panoramic views of the Catalina, Rincon and Santa Rita Mountains.

At over 3,400 feet, the rolling terrain supports saguaro, cholla and ocotillo cactus, abundant mesquite trees, and native grasslands.

A six acre park and community pool and spa offer areas for active recreation and public gatherings.

You can also walk, bike and hike the miles of trails meandering throughout the community.

Sycamore Canyon carves its way through the local terrain, where nearly 70% of the community - almost 1,100 acres - has been permanently set aside as open space.

W. of Houghton, S of Sahuarita at Harrison. Minutes to downtown Tucson & Tucson International Airport.
